

### 098220 AUTOPSTENHOJ Maestro 2.65F TT/TT 6.5 Tonne Baseless Two Post lift

UPLIFTING COMPANY  
**AUTOP STENHOJ**

Made In Denmark

The AUTOPSTENHOJ Maestro 2.65F TT/TT 6.5 tonne two post lift features newly designed 4 stage telescopic arms, with a standard minimum height of only 98mm.

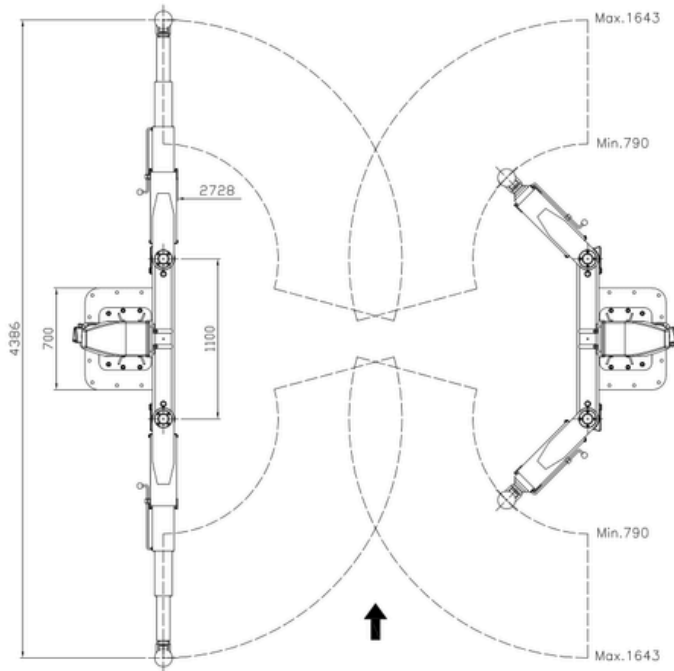

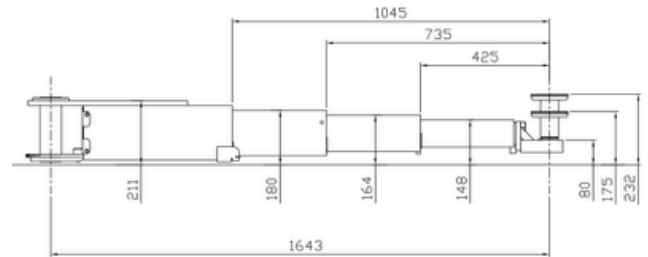

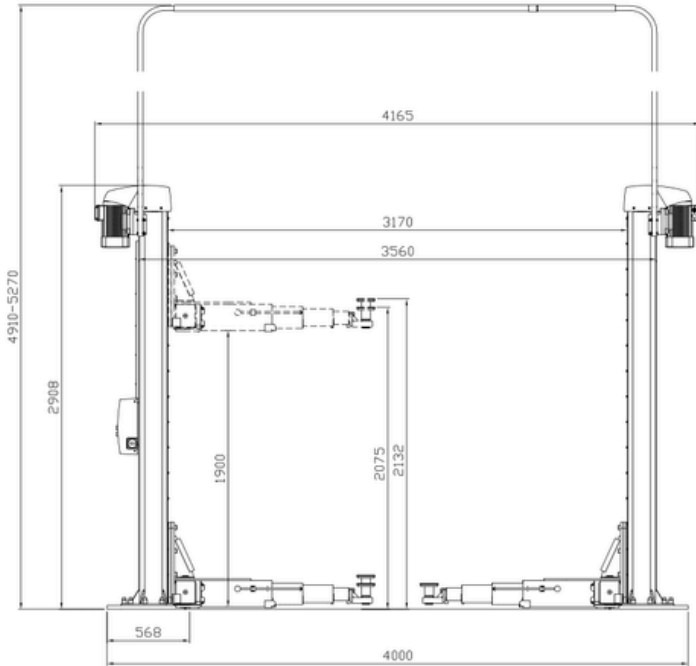

Thanks to the special swivel arm design with crossbeam, the Maestro 2.65 is perfectly suited to a wide range of vehicle types. Due to its unique column design, this lift only has the strongest, but also the slimmest column available on the market.

Smooth running behaviour is ensured by the roller-bearing carriage. The cold-rolled spindle guarantees a particularly long service life. Due to its unique column design, this lift only has the strongest, but also the slimmest column available on the market.
